

1. Claims 3-4, 10 and 15 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

As per independent claim 15, the claim language is vague and indefinite. For instance, although the preamble of independent claim 15 claims “[a] resettable high accuracy analog integrator circuit”, the claim fails to recite the necessary detail physical structures to perform a first and a second mode nor are there any recitation describing how such an apparatus (or elements) is actually provided in the circuit. Sufficient detail apparatus or elements must be recited to adequately describe and constitute the proposed circuit.

Also, the claim is incomplete in that it recites only a portion of the methodology required for the circuit to become operational, i.e., it omits essential elements. See MPEP 2172.01.

2. Claims 3-4, 10 and 15 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

3. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
